

vol. 4, August 2020

Dear Valued Partners,

This edition of the newsletter marks the **one-year** anniversary of the **first Malaffi go-live** and comes at an auspicious time for the UAE. During the past month, the UAE has launched the **Hope Probe** that is now well on its journey to the Red Planet and has become a symbol of what can be achieved through **ingenuity, dedication and hard work**. What began as a **seemingly impossible idea, has now been made possible** by harnessing the **innovation and enthusiasm** for advancement that is inherent in the **spirit of the UAE and its people**.

This determination to overcome the odds and make the impossible, possible has also been clearly demonstrated by the **UAE's healthcare professionals during the ongoing COVID-19 pandemic**. Just like the members of our Mars Mission team they too **are heroes and have inspired the nation** with their untiring and unshakable pursuit of providing the best healthcare possible to patients. Despite the unparalleled difficulties 2020 brings, **this ethos has helped to drive forward** the rapid onboarding of Mala and underscore the **importance of connecting all healthcare** in Abu Dhabi for the greater good.

All these achievements bring me great pride and showcase the UAE's powerful desire to be innovation-led, always contributing towards continuing advancement; **truly make the impossible, possible**.

Sincerely,

Dr. Hamed Al Hashemi
Director of Strategy

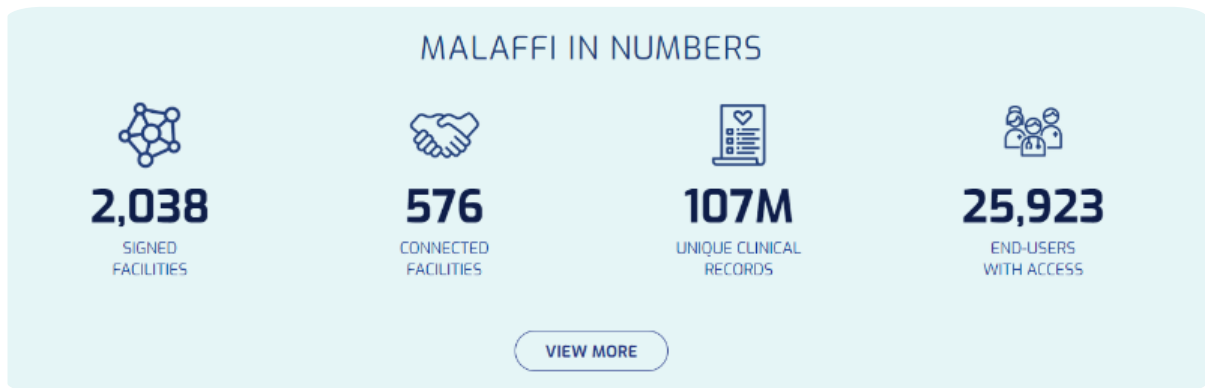

Welcome to Malaffi

We are pleased to welcome a total of **4 hospitals** and **58 medical centres and clinics** that connected to Mala during the past month. For the complete list of connected participants please visit our website [here](#).

New data types from connected participants

We continue to integrate more data types from the existing connected participants, that will now be available in Mala. Please see the latest updates below and check [our website](#) for the complete list.

- **Cleveland Clinic Abu Dhabi, NMC, and NMC Ruwais Hospital**-Lab results and radiology reports
- **Dar Al Shifaa Hospital, Emirates International Hospital**-Lab results, radiology reports and medications
- **SEHA Emirates Hospital**-Radiology reports and medications

Malaffi launch schedule update

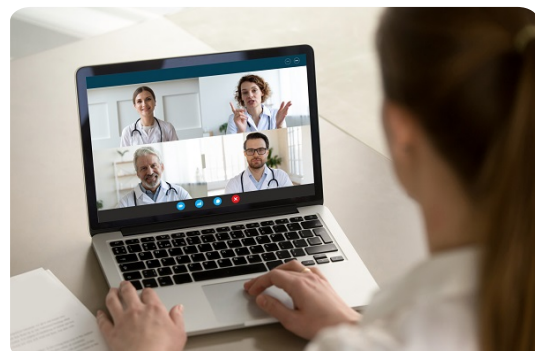

To check the updated launch schedule and the newly included facility types, please visit our website [here](#). For any questions, please get in touch with us at onboarding@malaffi.ae.

New encounter type -telemedicine

Telemedicine Encounters are now available as a separate encounter type in Mala, following a rise in telemedicine services during the pandemic.

Virtual awareness sessions

Thank you to the 240 Malaffi users from **Imperial College London Diabetes Centre** and **VPS Lifecare Hospital** who attended our virtual awareness sessions over the past few weeks. The Malaffi training videos are available on our **YouTube Channel**.

On the record

Dr. Mohammed Ibrahim
Head of Pediatrics
Danat Al Emarat Hospital

"Through Malaffi doctors are able to build the whole picture of their patient's medical history, especially in paediatric patients, whose parents might not remember medical details."

[Read more](#)

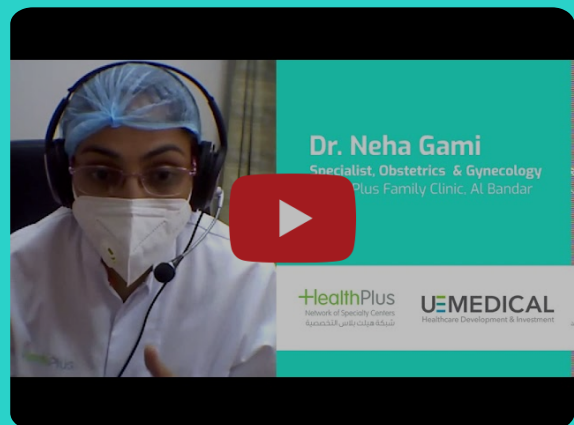

Dr. Amani Osman
Consultant Paediatric Diabetologist
Imperial College London Diabetes
Centre

"Having instant access to the medical history of our paediatric patients through Malaffi, provides vital information that their families might not disclose, which in turn empowers us to provide better care. It also helps avoid repeating blood investigations and possible radiology tests, which is quite significant when the patients are children."

Dr. Neha Gami
Specialist, Obstetrics and Gynecology
HealthPlus Family Clinic, Al Bandar

Listen to Dr. Neha as she talks about how Malaffi helps her with coordination of care for patients coming both from other Abu Dhabi providers and from the other facilities of the UEMedical group.

How does Malaffi help you provide better care to your patients?
